

Our Exciting Next Steps in Opening Up

On June 15, we are expanding volunteer driving and in-home services!

Although our office isn't open yet, fully vaccinated members who have sent a copy of their vaccination record cards to our office can now request rides to a variety of destinations, in-home or phone tech help, minor home repairs, as well as help with small yard/garden projects and temporary pet care! Friendly visits between fully vaccinated volunteers and members can also take place indoors, as long as the member is comfortable. Volunteers who offer face-to-face services are fully vaccinated and have also sent in their vaccination record cards.

In addition, more interest groups such as the Garden Group, Bocce Ball, and Walking Group, are now meeting outdoors. Most of our programs are still online on Zoom. However, we hope to offer most Village programs in the future both in person and on Zoom. Stay tuned...

If you want to attend Village programs in person, or take advantage of in-person volunteer services, please send a copy, photo, or scan of your Vaccination Record Card to info@VillageNetworkofPetaluma.org, or mail to: VNP, P.O. Box 442, Petaluma, CA 94953. (Our staff handles this info in confidence.) Or members can request a volunteer to photograph your card to send to the office – call 776-6055.

It's also a good idea to photograph or copy your Vaccination Record Card for safe keeping!
